**3. Membership Report (as of 10/20/08)**

Full members:	290
Retired members:	0
Student members:	236

**4. Summary of 2007 – 2008 Activities**

Our group hosted a symposium entitled "Biomechanical control and response at biomaterials-tissue interface" in Toronto Meeting. We also gave a keynote lecture at each of the Dallas AADR and Toronto IADR meetings, by Drs. Clark Stanford and Takahiro Ogawa, respectively. We continued to encourage and appreciate the activity of research by young investigator by granting Frechette Award and Pre-Prosthetic Regenerative Science Award. We generated an annual newsletter spread to our members in June 2008.

**5. Planned Activities for 2008 – 2009**

We will continue to maintain our quality and quantity of our activity by hosting symposia and lunch and learn sessions. Also we will plan to construct a group Web site which will be under IADR Web site. We will put more efforts in establishing a student research grant program of our group.
